

Message from Hon'ble Vice-Chancellor :-

Dear Friends,

'राष्ट्रहिताय संस्कृतम्' - 'Sanskrit for the well-being of the Nation' is the ever shining truth which is the motto and the objective at the same time for K.K.Sanskrit University, Ramtek. The Government of Maharashtra established this Sanskrit University on 18th September, 1997 in the name of Great Sanskrit poet Mahakavi Kalidas as Kavikulaguru Kalidas Sanskrit University at Ramtek in the Vidarbha region of Maharashtra. Ramtek has got historic importance with the temple of Lord Rama at Ramagiri. It is believed that Ramtek was the place where Lord Rama has placed his footsteps and charged the vicinity with nobility while he was in exile. It attracts the pilgrimage and tourists with nature's bounty and beauty. It is the birthplace of a great literary work that Kalidasa has written and which is entitled as Meghadootam. It has proved to be a masterpiece from his pen. On the first day of Ashadha (the monsoon month), lovers of literature gather at the Kalidasa memorial which is built on Ramgiri hill, relish the beauty of nature and the poem and pay their homage to the great poet.

The University is recognized by UGC under section 12 B of UGC Act and accredited by NAAC with grade 'B⁺⁺' and now has become eligible to receive financial assistance from Central Government. The University is trying to associate with the best faculty for the benefit of students admitted to the Bachelor's, Master's and Doctoral programs.

I heartily welcome you all in the beautiful campus spread over 10 acres of land at Ramtek. I also welcome you at our academic campus situated in Nagpur in Sitabuldi area. We are trying our best to enhance the quality of education with the curriculum and with the imparting methods coupled with modern technology. This University is the wonderful blend of study of the most ancient language rich in values and modernity in contents and technology.

The modern academic processes is no longer confined to classroom-based curriculum. For cultivation of mind it is essential to design appropriate learning experiences for the students. We are trying to develop new methods and teaching aids for students to learn more, explore more and contribute more to the society. As the Vice Chancellor of the University, I would like to focus on following key areas:

1. To create the mark of excellence on the Global Map of Research and Education;
2. To enhance Research Activities; for authentic and authoritative Research in Sanskrit along with other languages and linguistics.
3. To improve the teaching quality with interactive methods, teaching aids and technology.
4. Use of IT Infrastructure for Automation in Administrative and Academic process;

Join us in large number!

Enter as a student, leave as a scholar.

Wish you all the best!

Shrinivasa Varakhedi
Vice-Chancellor
